WORK EXPERIENCE

BUSINESS CONSULTING II - SERVICENOW DEVELOPER
DXC Technology, Zaragoza, Spain
Oct 2020 – Present

Asset Management Implementation for *Acciona-Spain* from scratch. Additionally, I developed a dashboard based on database views with interactive filters and content blocks, using Session Storage to maintain the state of the filters when the dashboard tab changes. I developed a UI Macro / UI Formatter to get Information about Billable CIs from any CI form. I developed some UI Actions to link a Contract with a CI and have the possibility to replicate this towards its Asset.

Developed a privately scoped application from scratch to centrally maintain key information of our customers, proyects and proposals. Create a Dashboard to include relevant reports.

ITAM Implementation for PUIG Spain. Ensure CI/Assets sync for Comm and Hardware Devices. Dynamic Form Layouts according Asset class and its lifecycle. Create an Assets Dashboard.

Keep the fields of the organization hierarchy up to date in list views and update them in real time when some value changes in any of the related tables through Scripts Includes, Async Business Rules and Client Scripts for ENEL Italy.

Develop systems integrations and process automation.

Create and configure Business Rules, UI Policies, UI Actions, Client Scripts and ACLs.

Create and configure Notifications, UI Pages, UI Macros, Scripts Includes, UI Scripts, Formatters, etc

SERVICES INFORMATION DEVELOPER
DXC Technology, Zaragoza, Spain
Aug 2018 – Oct 2020

Perform all activities related to the development of the enterprise Siebel CRM solution.
